Ulaanbaatar, Mongolia

github.com/Esmagzam

LANGUAGES

- Mongolian — Native
- English — Intermediate
- Turkish — Intermediate

TECH STACK

MOBILE
Flutter, Dart, Android Studio

BACKEND & DATA
Supabase, PostgreSQL, Auth

DELIVERY
App Store Connect, Git, Linux

PRODUCT FOCUS

Education and productivity apps for a global iOS audience.

PROFESSIONAL SUMMARY

Independent Flutter engineer and mobile product developer, publishing educational and productivity apps for the Apple App Store. I build complete mobile experiences - shaping the product, implementing the application, connecting Supabase foundations, and carrying releases through to international availability.

WORK EXPERIENCE

Indie Mobile App Developer — PRESENT

Building, publishing, and continuously improving purpose-built iOS applications for learning and focus - independently, from concept through App Store delivery.

Team leadership and collaboration — EXPERIENCE

Previously led a three-person team, supported by teamwork, clear communication, time management, and curiosity for new technology.

PUBLISHED APPLICATION PORTFOLIO

Focusato
Beautiful Pomodoro timer and task manager.
Flutter | iOS

Phrasie
English verbs, phrasal verbs, idioms, and conjunctions.
Flutter | iOS

Koshakan
English learning app for Kazakh speakers.
Flutter | iOS

Vocubee
Vocabulary learning application for English confidence.
Flutter | Supabase

KEY ACHIEVEMENTS

04	iOS applications published on the Apple App Store.
1	Independent maker building from Mongolia.
FL	Every released product built with Flutter.
INTL	Apps available to an international audience.
